Students who want to pursue graduate training in psychology are advised to begin preparations early in their undergraduate careers. GPA, scores on the GRE, effective communications skills, preparation in the natural sciences and mathematics, and research experience (e.g., honors project, directed readings, laboratory experience) are the major criteria considered by admissions committees. To gain this research experience students are strongly encouraged to take the advanced research course - PSYC 3280.

For additional information on the major, possible careers, graduate school, and ways to get connected to the department, contact either Dr. Joel Freund (jfreund@uark.edu) or stop by the psychology advising office in 203 MEMH.
