| | | | **Writing Requirement:** The Fulbright College research/analytical majors is fulfilled in ANTH 4013. |

### Electives (to meet the 124 hour minimum Graduation Requirement)  
† No graduation credit is awarded for a world language 1003 course to students continuing with the language taken in high school  
(See 2012-2013 Catalog of Studies)  

**Requirements for Departmental Honors in Anthropology:** The Departmental Honors Program in Anthropology provides an opportunity for outstanding undergraduate majors to conduct independent research under the supervision of a faculty member. The research project culminates in an honors thesis, which is primary for the award “Anthropology Scholar Cum Laude.” Higher degree distinctions are recommended only in truly exceptional cases and are based upon the candidate’s entire program of honors studies.

Honors candidates must meet the college requirements for an honors degree. They must complete and defend an honors thesis and take 12 hours, which may include 6 hours of thesis, in Honors Studies. The candidate is expected to maintain a minimum 3.5 cumulative grade-point average in anthropology and other course work.
