#### **General Electives** (24-45 hrs)

How you use these hours will depend on your educational and career goals. Early in your degree you might use this section to jot down ideas for how to plan. As you get closer to graduation, you might use this section to track which classes you've taken outside the above requirements.

Graduation Checklist (does your plan include the following):

- 2.0 minimum overall UofA GPA (Courses taken at other colleges or universities are not factored into this GPA)
- All state minimum core requirements
- \_\_\_\_ All Major(s)/Minor(s) requirements
- Writing requirement complete
- At least 50% of each major/minor taken from UofA
- 24 hours of 30000+ classes exclusively from Fulbright College of Arts and Sciences classes
- 30 hours of 30000+ classes exclusively from the University of Arkansas. This can include courses taken for the 24-hour rule.
- 40 hours of upper-level classes. (30000+ or 20000+ with a pre-requisite. Can include transfer credit.) This can include courses taken for the 24-hour and 30-hour rules.
- 120 total eligible credit hours (see below for a list of ineligible classes)

#### **Biology Department Information:**

<u>Note about Pre-requisites</u>: Due to the nature of math placement, many science classes will offer multiple pre-requisite options. This document lists the class that serves as the pre-requisite, but see the <u>catalog</u> for additional options. Math classes need to be passed with a C or higher to serve as pre-requisites.

<u>Note about Upper-Level Graduation Requirements:</u> All Arts and Sciences majors are required to take a certain number of upper-level classes (See the College and University Requirements section below for a specific breakdown). Due to the large number of choices available in the BIOLBA, the number of upper-level General Electives that a student needs to take will vary. Additionally, Students must complete a minimum of 20 credit hours at the 3000-level from any combination of BIOL, CHEM, STAT, or PHIL requirements.

Please visit <u>https://catalog.uark.edu/undergraduatecatalog</u> for an extensive list of core, major, graduation, and prerequisite requirements. To read more about individual classes, visit the <u>courses of instruction</u> page for course descriptions.

BIOL 10104 is the preferred course, and substitutions are not guaranteed. No AP credit for BIOL 10103/10101 will be accepted in lieu of BIOL 10104.
BIOLOGY ELECTIVES 13 hrs	Take <b>13 hours</b> of BIOL electives, which must include <u>9 hrs of</u> <u>3000+ leve</u> l courses and at least one course that's <u>20000+ with</u> <u>a lab.</u>	BIOL 10104 and CHEM 14103/14101 & CHEM 14203/14201 are the pre-reqs to many advanced BIOL courses but some courses may have additional pre-requisites.
	<ul> <li>NOTE: Upper level BIOL courses vary in hours, so there is not a set number of classes required to get to 13 hrs but would most commonly be 4 classes. Because there is so much variation in options, a student's Degree Audit for this section in UAconnect may not always be accurate until the student asks their academic advisor to manually correct it.</li> <li><u>Courses that include Labs:</u> Any 20000+ class that lists a lab component as part of its course description can count for the lab requirement. BIOL 4800V, 480HV, 4997V, and 499HV also count as labs.</li> </ul>	*Students most often take their 20000+ lab class as a 4-hour lecture/lab combination. This is not required, but students who take a lab class that is less than 4 hours or not paired with a lecture class may need to request their advisor adjust their audit to count all appropriate classes. Classes that transfer as BIOL 3999T or 4999T may count in this category. as long as students still meet the 50% rule. Not all 99T classes pull into the degree audit automatically, so students may need to request classes be moved into the minor by their academic advisor. A BIOL 299T class could count in this category, if students can demonstrate that the class contained a lab.
