

Study Abroad in England!!!

MEDIEVAL ENGLAND SUMMER 2021

Program Overview

This program is an interdisciplinary, introductory survey of all aspects of British history and culture from approximately 500-1500 c.e. The primary learning objective is to become familiar with a millennium of history largely unfamiliar to most Americans. Students will be introduced, by casual lectures, frequent discussion, site visits and collaborative inquiry, not only to the cultural achievements of England's medieval period but also to its enduring relevance to America's literary, political and religious consciousness. The course will provide an introduction to the history and culture of England from the arrival of Hengest and Horsa to the Battle of Bosworth Field. All assigned readings are in modern English. Classes will initially be conducted (Mondays through Thursdays) at Durham University; there will usually be two two-hour meetings per day.

Students will reside at Hatfield College for the first three and a half weeks. We will then visit York for two days and spend our last weeks in rooms at London. Site visits will include Lindisfarne, Durham Castle and Cathedral, York Minster, Canterbury, Rochester, Dover, Hastings, the Tower of London, Parliament, Hampton Court, Windsor Palace, and the Globe Theatre. There will also be ample opportunity for independent travel on extended weekends. Students will also attain both experience and confidence for further study abroad. This program is especially good for novice travelers.

***Applications are currently open and accepted on a rolling basis, so please visit the course webpage at hogsabroad.uark.edu and search "Medieval England."*

Quick Information	
Study Abroad Advisor	Katie Sabo
Faculty Leader	William Quinn
