

HONORS CANDIDATE THESIS REPORT (SALMON SHEET)

NAME: _____ DATE: _____

E-MAIL: _____ ID #: _____

GRADUATION TERM: _____ HONORS MAJOR: _____

COMPLETE TITLE OF HONORS THESIS: _____

<i>Committee Members</i>	<i>Name</i>	<i>Level</i>	<i>Signature</i>
Thesis Advisor			
Departmental Member			
Non-Departmental Member			
Honors Council Rep			

Committee members must choose one of the following levels:

Summa +	Magna +	Cum+	No honors
Summa	Magna	Cum	
Summa -	Magna -	Cum-	

Summa

A committee member is satisfied that the project is of the highest level of research, analysis, writing, or performance, when applicable, and is of the caliber to be presented at a regional or national conference; or submitted to a journal in the field; or performed or displayed in the venue appropriate to the specific artistic discipline.

Magna

A committee member is satisfied that the project is a carefully researched, well-written, analytical (not simply descriptive) or presented/preformed project that assesses the significance of the research an or artistic discipline involved.

Cum

A committee member is satisfied that the project is worthy of honors and that corrections that need to be made are minor.

No Honors

If any committee member finds that the project is inadequate and feels that no honors should be awarded, the Honors Council will make a final determination on the student's status.

Votes may not be adjusted after Sheet is submitted to the Fulbright Honors Office.

Form must be returned to the Honors Studies Office at 517 Main within 24 hours of defense date.

For Office Use Only: Program _____ GPA _____ Honors hours _____

Summa

Minimum GPA.....	3.9
Minimum Honors Hours.....	24
Minimum Defense Score.....	6.5

Magna

Minimum GPA.....	3.8
Minimum Honors Hours.....	18
Minimum Defense Score.....	3.5

Cum

Minimum GPA.....	3.5
Minimum Honors Hours.....	12
Minimum Defense Score.....	1.0

Each committee member will assign the student a level of distinction for the honors thesis/defense. The Honors office will average those levels, and this number, along with the student's GPA and number of honors hours, will be used by the Honors Council to determine the student's ultimate level of graduation. To graduate at a specific level, the student must meet all three minimums (GPA, number of honors hours, and defense score) set by the Council for that level.

Note: the cumulative GPA from the semester *before* the student's final semester (semester of graduation) will be used in determining the student's GPA. For example, the GPA at the close of the Fall semester will be used for Spring graduates, since the Honors Council must determine the student's distinction before final grades have been submitted in the Spring.
